tower of elements 2. the keeper of 4 elements tower defense. tower of elements game. tower of elements wow. the tower of elements. the tower of elements badge. the tower of elements steam. the tower of elements in ashran

Really simple, just few buttons and try to hit the right colors with right buttons.

I do like this, but it will take time when i get bored, but still does the job.. u can have ur friend dress up like trump and shoot them in the head over and over and over.

for \$8 its well worth the money  
there are some crazy power-ups.  
its a fast paced twitch shooter  
the graphics simple so any potato pc can run it  
the character customization is funny.

i had previously given this game a bad review but over night the dev addressed just about everything i had against the game

the game is a simple shooter with wacky power-ups and game modes and it only 8 beans. check it out. Great puzzle-game with a very nice artstyle. Good and easy riddles, a little bit short. Watch my video of the first levels or try the demo. I recommend the game.

<https://youtu.be/vy9HGjd644Q0>. Chicken in a tank.. hahaha XD. Controls are more than frustrating.. Worth every penny spent.

[. A fun old school RPG](#)

[After a couple of hours of gameplay, are still finding it entertaining](#)

[Easy to play, simple interface, lots of units and enough items to choose from to keep it interesting](#)

[I am finding it fun to play. Came here to review this as soon as I've seen the buildings in game. They are amazing, you will not regret. KingLeno is one of the best asset creators for this game and he really made a masterpiece here. This pack is so good \(even better if you are building an American City\), that its up there with the most essential DLC.](#)

[Couldn't recommend enough.](#)

[Super cheap, super good looking.](#)

[Just buy it already :P. SoS was a pleasant surprise. A visual novel game, it distinguishes itself with a unique concept in which 4 characters are sent on a life-long journey into the depths of space with new tech to explore what lays beyond. The game revolves around managing the relationships between, and exploring each character's past and personality. Without giving away spoilers, there is an interesting "mechanic" involved in which you learn more about each individual as the days pass. Refreshingly, every crew member is well fleshed out- they aren't nearly as one dimensional as you are led to believe early on- and one in particular really evolved throughout my playthrough. The art and animations are well done too. Definitely a fun game to try, and worth the money.. good game :\)!!!](#)

---

aMAZE is a calm and wholesome way to spend a few minutes, but there's a real problem with this game that being comfy doesn't quite make up for. "Surprisingly-difficult" isn't exactly the hyphenation I'd use to describe this game. aMaze is a compilation of 50 mazes divided into "Easy," "Medium," and "Hard" categories, but the simple truth is that all of these mazes are easy. I finished this game in under 40 minutes, and that included a bathroom break. In all likelihood, I will be idling for cards for a longer period of time than I spent playing the game. As such, aMAZE is probably great to plop a kid in front of, but adults will get more enjoyment out of its marginally tougher sequel.. This is a casual \u201cspot the difference\u201d game. Since it\u2019s geared towards kids, most of the differences are pretty obvious. Although most puzzles will have 1-3 things that are a little harder to find.

Every time you find a difference you get an achievement, which is why there are almost 300 for this game. One glitch I had was entering a scene and then exiting popped the \u201cComplete all levels\u201d achievement.

There are 24 scenes. All of which are vibrant and fun to look at.

#### Pros

+Colorful

+Difficulty great for kids (and adults when you want to zone out for 30 minutes!)

+It works!

#### Cons

+Short (depends who is playing)

+Music loops too frequently (I muted the game and played my own music)

Got this for 49 cents on sale. Worth every penny to relax for 30-35 minutes. Even the asking price is fine if you\u2019re playing with a kid that will take more time and learn from it.

5/10 Average. Build stuff to wreck someone else's stuff before they get enough stuff to build stuff to wreck your stuff.

Did I mention wrecking stuff?

.

[Follow "First Person Exploration and Puzzle Games" for more games like this!A Portal-like with a glaringly obvious lack of polish. I only did the first few puzzles, but they were bad. The voice acting is nearly incomprehensible, and there's no way to disable mouse acceleration. There are literally dozens of similar games out there that are better - avoid this one.. im not saying that this game isnt enjoyable it just does not entertain for long. The game lacks excitement and a desire to play more and the actions you take as a player become repetitive and meaningless. i would not reccomed this game to anyone looking to invest large ammunts of time. pretty good until you have to fight doctor octopus and magneto at the same time, \u2665\u2665\u2665\u2665\u2665\u2665\u2665t fight imo. This game is pretty fun so far, it's a bit like Excite Bike meets Trials. If you have a monitor that runs at higher than 60hz though you should set it to run at 60hz or the game runs too fast, which is a bit rubbish.. Very enjoyable. Works well on my machine and my machine can barely run FSX. I wish the set up was easier but just take your time and keep fiddling until controls are just right and you love it!](#)
